

“Knuckle Sandwich” Knuckle Service Bundle Installation Instructions
300117-1-KIT (Toyota Pickup/4Runner) & 302251-3-KIT (Suzuki Samurai)

NOTICE: This Knuckle Service Bundle is provided with OEM replacement Felt Knuckle Gaskets, Rubber Knuckle Gaskets, Felt Guards, and Inner Axle Seals. A set of Trail-Safe™ Knuckle Ball Wiper Seals, Rock Rings, and Trail-Safe™ Inner Axle Seals are also provided in this Bundle. It is highly recommended that you install the Trail-Safe™ Knuckle Ball Wiper Seals, Rock Rings, and Trail-Safe™ Inner Axle Seals while saving the OEM replacement Felt Knuckle Gaskets, Rubber Knuckle Gaskets, Felt Guards, and Inner Axle Seals for use as trail spares. The Felt Guards and Rock Rings look identical, but the Rock Rings will be much thicker than the Felt Guards. The OEM Inner Axle Seals have a bare steel body, and the Trail-Safe™ Inner Axle Seals have a rubber-coated body with a steel flange.

If you have any questions about this or any other components in this Bundle, please call Trail-Gear Technical Support at 559.252.4950 or 877.4X4.TOYS, or via e-mail to tech@trail-gear.com.
